

Wood Stain

High durability color oil

2-in-1 oil, clear protective coating and tinting base

Clear / Tint Base

18 rich colors

Scan the QR code for more information

ADVANTAGES OF THE MATERIAL

- 1 Easy to apply + a beautiful oil treated finish + maximum protective properties
- 2 Comfort and faster, complete projects in 1 day of work
- 3 Economical, rich color + high durability
- 4 No wood conditioner or topcoat required
- 5 For horizontal and vertical surfaces

PROPERTIES OF MATERIALS

- Enhanced with nano pigments for exceptional color clarity.
- Rich color and deep tone already after the first coating.
- Penetrates deeply into the wood surface, emphasizes the natural grain structure of the wood.
- Without leaving a film on the wooden surface – without cracking or flaking later.
- High abrasion and scratch resistance.
Hard-wearing, dirt and water-repellent coating.
- Penetrates deeply into the wood surface by feeding into the wood, protecting the surface from within, allows wood to "breathe".
- Easy to use, does not require any special skills.
Easy application with roller
- Gives a pleasant feel of the natural wood to the touch.
- For interior use.

Packaging Size:

▶ **18 rich colors**

0,2 L;

1 L.

▶ **Clear / Tint Base 2-in-1 oil, clear protective coating and tinting base**

0.72 L with free volume for colorants (30ml);

2.4 L with free volume for colorants (100ml);

Coverage in 1 coat: 30 m² / L

6 m² / 0,2 L

22,5 m² / 0,75 L

WHERE TO USE:

For any interior bare wooden surfaces:

- floors: solid wood, parquet, cork, hardwood and softwood floors;
- stairs: steps, balusters, handrails;
- doors, windows, window sills;
- walls and ceilings;
- furniture and pieces of furniture made of solid or glue-laminated wood (tables, chairs, tabletops, etc.).

Type of surface

For horizontal and vertical interior wooden surfaces.

Visual effect

Gloss / Sheen

In 1 coat - matte

In 2 coat - satin

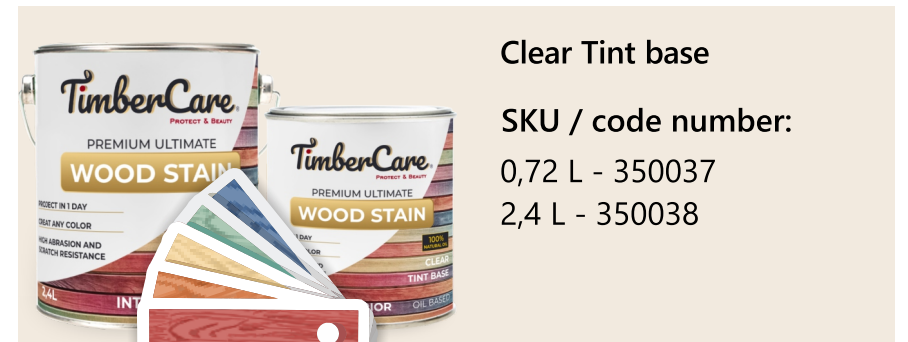

18 rich color oil collection: coating with various deep tones, emphasizes the natural grain structure of the wood.

Clear – transparent oil, does not change the natural color of the wood.

Tint Base can be used for tinting in any shades (light and dark / warm and cold colors).

Suitable for tinting with any European tinting systems.
